

BOARD OF TRADE HOLD MEETING

Advised of Probability of Closing
Road—Discussion Holding
of Carnival in Fall

Just enough members for a quorum were in attendance at the Board of Trade meeting in the Imperial Hotel dining room on Wednesday, August 13, at 1:00 o'clock. The attendance was small because a number of members were out of town and others were too busy to go to the meeting.

It was reported that the road between Lathum and Capella was graded.

Wm. Melars reported that several officials of a beet sugar manufacturing company were in Bassano early this week, and had discussed various aspects of the beet sugar industry. He said there was a large acreage in the Taber and Burwell districts ready for beets, and those districts may have a new sugar factory next year. Owing to the present low price of sugar the beet sugar manufacturing interests had planned little expansion in the industry at present, and it was altogether unlikely that the Blue Valley would get a sugar factory before 1932.

J. F. McDonald reported a profit of \$71.50 on the carnival last Dominion Day. In view of the size of the crowd on that day and the adverse weather conditions that evening, the profit was considered satisfactory.

A. T. Connolly advised the members that it was quite probable that the old main road northwest of town, from the canal bridge east to the first railway crossing, would be closed. This section of the old road will be of no further use when the new highway is completed, as the new grade runs east of town on the north side of the track.

Jas. Johnston suggested that the Board of Trade put on a carnival this fall. Some discussion followed this suggestion, but no definite steps were taken toward putting the idea into effect.

An election will be necessary at the next meeting to choose a new member for the public affairs committee. A vacancy has been created in this committee by the departure of Chas. Hagger, who has moved to Crofton.

Countess

COUNTRESS, AUG. 14—Miss Mallick threatened some eye the last of the week.

Miss L. Price, of Calgary, is spending a week with Mrs. M. Ferguson.

Miss Ruby Ward, of Huesar, is visiting at the Ward home.

Miss M. Ferguson gave a dinner Sunday for a number of relatives and friends.

Mr. and Mrs. Anderson is spending her vacation at Galt Lake.

Rev. E. G. Turner, of Brooks, will preach and administer the sacrament at Holy Communion on Sunday.

Mrs. M. Gamble, of Marianne, and Miss Stone spent Saturday afternoon visiting with Mrs. Gayford in Bassano.

Miss Alice Wallace, of Calgary, was a guest at the Gamble home the last of the week.

P. F. Egan and family went to river on Monday after chocolate.

WHO CAME THE VOTES AGAINST NEW MINISTRIES

OTTAWA, Aug. 14—Election affairs are curious. For example, Ottawa turned against the Conservative party by an almost unprecedented majority and yet it is more simple to find the provincial needs in a haystack than to locate anyone apart from the active and violent partisans—who voted against the Bennett candidates. The civil service is already preparing its memorials to favor of more pay from the new government.

NEW ORPHEUM THEATRE OPENS

Thrilling Gains Play Pleased With
Opening Performance in New
Picture Play House Last
Friday

The Orpheum, Bassano's new playhouse, opened last Friday evening. The new theatre was nearly filled to capacity the opening night when the audience saw a splendid picture program consisting of a very laughable comedy and a great historical feature, "The Divine Lady," a story of Lord Nelson and the great British naval victory—the battle of Trafalgar.

Members of the audience voiced many words of praise for the new theatre. Its comfortable seats, good ventilation, and fine picture on the screen. F. Ubertino, theatre manager, was praised for his splendid work in transforming the Ingram Block into a picture theatre, and many people were agreeably surprised with the results.

Mr. Ubertino says most of the talking picture equipment has arrived and has been installed, and there is still some mechanism which he is waiting for before he can change over to talking pictures.

Wheat Stumps

Wheat prices have suffered another slump and the market has registered losses almost every day this week. The closing Winnipeg prices on Thursday, Aug. 14 were: No. 1 Northern, cash 54 1/2; No. 2 Northern, cash 54 1/2; No. 3 Northern, cash 54 1/2; No. 4 Northern, cash 54 1/2; No. 5 Northern, cash 54 1/2; No. 6 Northern, cash 54 1/2; No. 7 Northern, cash 54 1/2; No. 8 Northern, cash 54 1/2; No. 9 Northern, cash 54 1/2; No. 10 Northern, cash 54 1/2; No. 11 Northern, cash 54 1/2; No. 12 Northern, cash 54 1/2; Mistakes

Glancing through a magazine recently the writer's attention was attracted by an article bearing the same title as appears at the heading of this column. "Mistakes." It was a short article, but a paragraph in it stood out as important and worthwhile, worth passing on for the consideration of those who read this column from week to week.

After testing mistakes in the "Great Men of Business," and the different ways in which they react to them, the article in question offered comment.

"Looking back over history, it would seem that mistakes, of themselves, are comparatively unimportant. All men make them. The important thing is how a man acts afterwards."

There is sound philosophy in that observation. It is desirous of more than passing attention.

All people make mistakes. Not one of us is infallible. The real test is: Do we profit by them? Do we use them as stepping stones to real achievement, to the winning of success? Or are we embittered by them, discouraged, inclined to give up and let go?

When a business man makes a mistake, jeopardizes, even loses, the savings and accumulation of a life, and then begins to think of giving up the sponge, contemplating suicide, or some other rash act, it is a confession that he was not really a big man after all; that he is lacking in stamina, will-power and true courage.

Experience is a hard taskmaster, a bitter teacher, but it is a teacher, and a good one at that, because it is through experience that we do learn. All men make mistakes, big men as well as little men. Nor is it individuals alone who make them; governments make them, communities make them, nations make them. They must pay for their mistakes, but they can also profit from them.

One of the mistakes of this present age is to confuse bigness with greatness, to confuse quantity with quality. Next year the census of Canada will be taken, and already communities are anxiously awaiting the figures to ascertain to how large an extent they have grown in population, each town and city being judged on size, seriously regretting that they were not as large as some thousands of criminals and others of an undesirable class.

In their ambition to become big and bigger they have made the mistake of ignoring the quality of their citizenship, and neglecting those social provisions which would make their communities big in the truest, highest sense.

It is not the manufacturer who, through mass production, is turning out an enormous volume of products who is the truly successful man; it is the farmer who, the really successful man is he who is producing quality products. Nor is it the farmer who is operating several sections of land in a more or less haphazard way, in the long run, will prove successful; it is the farmer who is farming intelligently, striving to raise the best quality of grain, the best grade of stock, poultry and dairy products, with trees and flowers and vegetable gardens, who is establishing a real home, making a lasting contribution to his country, and a success in his life work.

But, to return to our theme, "Mistakes." All men make them. Do not be discouraged by yours. Remember, the important thing is how a man acts afterwards.

This is a comforting thought. You can retrieve your mistakes. If you had always been right during the past five or ten years you might be much better off financially today than you are. But you have those experiences to guide you now, and you can profit from them if you will.

But, and here is the important thing, the paragraph in the magazine article with which reference has been made it reads:

"Don't make the most serious mistake of all, that is to think about your mistakes."

Forget them, except to profit by them. Don't brood over them; don't let them discourage or embitter you; don't weaken; don't regard them as irretrievable disasters. Be up and doing; forget them; use them to rise to greater heights and a larger success.

Would Deport Communists Makes Remarkable Recovery

U.S. Congress Is Urged To Take Necessary Steps

Representative Hamilton Fish, Jr., in a radio address from New York, urged that congress take appropriate steps to deport all alien agitators and Communists affiliated with the Third International.

"We have tolerated them and their criminal activities too long," he said. "Let them go forth or be deported back to their native land."

Congressman Fish, who is chairman of the special committee investigating Communist propaganda in the United States, asserted that what the Communist leaders do in Russia is solely the business of the Russian empire.

"What the emissaries of the Soviets do in the United States of America, however, is our business," he added.

According to statistics there are in the three prairie provinces 68,000 tractors and 7,722 harvester combines, Alberta alone spending \$8,198,000 on new tractors and combines.

An Old Remedy

that never loses favor. Minard's Liniment has been used for fifty years. A sure test of quality.

W. N. W. 1850

Time Element in Cancer

Different Periods of Life Have Bearing On The Trouble

A curious time element in cancer is described by Sir George Lanthal, Cheate, British cancer authority. He is chief surgeon of King's College Hospital, in London, England, and is attending the British Medical Association meeting in Winnipeg.

There is one time when previously harmless stages of growth are likely to become cancer later suddenly. This is in the same relative period of life for both men and animals.

"It suggests," Sir George said, "that either some fresh, as yet unknown factor or agent may replace the body just at the critical time and cause cancer, or that the different parts of the whole cycle for a continuous process, and one part passes naturally from one stage to the final catastrophe of cancer."

"The first stage is most prevalent from the late twenties to the thirties, the second stage, the late forties and the late fifties and early forties. The change into cancer occurs in the late forties and early fifties of life."

Guard Baby's Health in the Summer

The summer months are the most dangerous to children. The commonest diseases of which they are victims are cholera, infantile, colic, diarrhoea and dysentery. Some of these diseases often take a little more time to develop than the mother realizes. It is her duty to prevent these troubles, or if they do occur, to add to the child's health. No other medicine is of such aid in such cases as Baby's Own Tablets. They regulate the bowels and bowels and bowels are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Importance Of Rubber Industry

Canada Rubber Products Exported To Many Countries

Nowadays the world depends on rubber, and this does not apply to automobiles alone. According to a recent return of the Canadian Government the people of Nigeria, in June, bought 300 pairs of shoes with rubber soles from Canada. Barbados took 3,000 pairs and Trinidad 8,500 pairs.

Although Canada is not a producer of raw rubber, the rubber industry is of much importance and rubber products are exported to many countries of the world. In June the export of Canadian automobile tires exceeded \$1,000,000. The largest buyers were New Zealand, British Siam, Belgium, Argentina and Brazil.

Repair Brock's Monument

New Arm and Hand Piece Placed In Position

Brock's monument is again entire, and the government has had placed out over the lake toward the northern shore. Recently Hon. George S. Henry, Minister of Highways, and members of the Parliament Park Commission, made an inspection of the finished job, and the scaffolding was removed.

Carved out of a single stone weighing three tons, the massive arm and hand piece was placed in position. The old arm was taken to Hamilton and wired together to serve as a model for the new one. The old arm was broken in a storm two years ago.

It Will Prevent Throated Throat. At the first symptoms of sore throat, which presages ulceration and inflammation, take a small dose of Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will soothe the irritation and prevent the ulceration and swelling that are the painful ones who were perfectly usually subject to quinsy have thus made themselves immune to attack.

Big Cut In Naval Costs

By Hon. A. V. Alexander, First Lord of the Admiralty, announced in the House of Commons that the Labor Government reduced the cost of the British naval building program for 1928-29 by an estimated \$12,000,000. Mr. Alexander made the announcement in reply to a question about how much naval costs had been reduced since the present government took office.

Put To Strange Use

"It's a funny use to make of it," commented Dr. C. H. Best, co-discoverer of insulin with Dr. E. Banting, on the report that the London Society for the Study of Insanity is using insulin for the treatment of delirium tremens. Dr. Best explained that an overdose of insulin is equivalent to an overdose of alcohol.

Have Minard's Liniment on Your Shelf

There are statues to twelve women in London, England; of these, six are queens, the other half-dozen being Mrs. Biddons, the actress, Florence Nightingale, Grace Darling, Nurse Cavell, Margaret MacDonald, the Prime Minister's wife, and Mrs. Pankhurst.

SWEEETENED CONDENSED MILK

Start Long Trail Ride

Party of Britteners Undertake Long Journey Through Rocky Mountains

Starting on a trail ride that has never before been attempted, Sir Reginald Batten, Bart., of London, England, S. C. T. Littlewood, of Surrey, England, and J. Wilson Perry, of Salop, England, left the Haalt Springs Hotel recently for a trail mountain ride to Port Hope, B.C., with the possibility of continuing from there to Vancouver by the same mode of travel.

The route they are following takes them past Spray Lakes, by the Spray River to Palliser Pass, then down Palliser River to the Kootenay. This section of the ride is the route discovered by Chaffin Puller, in 1858. They will cross the Kootenay, then Tiger Pass to the Columbia River. After crossing the Columbia at Willmer, they will follow Tye Creek to Tye Pass, thus crossing the Selkirk system and will descend the Duncan River from Nakam to Port Hope. They will travel by boat, then cross the Fire Valley Pass to reach the Okanagan of Princeton and Port Hope.

Some sections of the trails they will travel have not been packed over for twenty years or some trails have been explored in getting through. The whole party consists of three men, eleven pack horses, constitute the train.

Stands the Test

Garnet Wheat Has Extended the Area of Hard Spring Wheat By Early Ripening Qualities

Garnet wheat, developed by the Cereal Division of the Dominion Department of Agriculture, loses nothing by the grueling tests to which it was subjected at the hands of twenty of the world's outstanding authorities on malting and baking in Great Britain and on the Continent. Not only is Garnet firmly established as a high quality wheat, but it is an "improver" of blends has a promising future. Since its introduction in 1926, it has extended the area in which hard red spring wheat can be matured without danger of damage by frost by 25 per cent, and it already counts for more than one-fifth of Canada's wheat crop. It is a splendid counter for the early frost zones of the prairies, and is proving the best yield among the wheats sown in Eastern Canada.

Douglas' Egyptian Liniment is remarkable in its quick, effective action. Relieves instantly pains, sprains, toothache and neuralgia. Invaluable for sore throat, croup and quinsy.

Book Agent: St. John's encyclopedia will tell you anything you want to know.

Citizen—Is that off? You turn to the page 10 and you will find Cook Robin and read it so far.

If a woman isn't married she wants to be, and if she is, she chances are she doesn't want to be.

South Africa expects 1930 to be one of its most prosperous years.

Summer COLDS

Almost everybody knows how Aspirin tablets break up a cold—but why not prevent it? Take tablet or two when you first feel the cold coming on. Spare yourself the discomfort of a summer cold. Read the proven directions in every package for headaches, pain, etc.

Bayer's Aspirin Tablets

According to the latest report the Saskatchewan Wheat Pool has a membership of 82,290 farmers. During the year ended May 31st, the provincial organization handled through its own elevators 87.2 per cent of all pool grain—this being said to be the high water mark of co-operative grain handling.

Operated Under Difficulties

Doctor Performs Serious Operation On Board Ship With Cruise Instruments

A cook's carving knife, a pair of pliers borrowed from the carpenter, a bottle of Holland gin and a needle and thread, saved the life of a seaman stricken with appendicitis, and as a result Dr. David R. Robbins, Los Angeles surgeon, recently was presented with a huge silver loving cup by the Planet Steamship Company.

A little more than a year ago Dr. Robbins and his wife left Los Angeles on the steamship "Corvus" saying that Henry Lohs, 21-year-old sailor, was stricken with appendicitis.

The "Noorderdyk" steamed to the "Corvus" and when they met, Lohs was transferred to the "Noorderdyk." Dr. Robbins was asked to save the man's life.

Dr. Robbins borrowed a carving knife from the cook, made the incision on the man's abdomen, and removed the appendix. He then sewed up the incision with a needle and thread borrowed from his wife and disinfectant from the Holland gin. A piece of rubber tubing from a shower bath was used for drainage. As a result of the operation, Lohs is well and hearty, hauls on the main brace and jolly jinks, "Blow the Main Down."

Because he was in charge of the instrument, Dr. Robbins refused to accept any pay for the operation, stating that the operation under such adverse conditions might not prove successful.

However, the steamship company did not forget Dr. Robbins' deed on the high seas, and when he returned to Los Angeles from his year of study in Germany he was presented with the silver loving cup.

Reduced By Asthma. The constant coughing and wheezing of a patient in a dreadful state of hopelessness, early use of the Asthma Remedy, Dr. Kellogg's Asthma Remedy, which more than any other quickly and surely on the air passages and brings relief help him to breathe.

No matter where asthma is present in the least degree should be without this great relief.

A Famous Clock

Big Ben, in London, England, Never More Than a Second Fast Or Slow

Big Ben, the clock on the parliament buildings in London, England, tells a timeless which can make them hear all over the world. It is never more than a second out in striking the hour. The Astronomer Royal says it is done.

A halfpenny does it. This coin of the realm encourages Big Ben. If he is a second slow, it is placed on a tray halfway down the great pendulum, and this tiny addition is sufficient to make the pendulum swing faster.

If the pendulum is a second fast, a halfpenny is taken off the tray. Big Ben's pocket on the tower checks the pendulum's career and it begins to swing more thoughtfully and slowly. Big Ben is right again, never more than a second out.

It takes two seconds for the sound of the strike to reach Trafalgar Square, twice as much as Big Ben is ever out of time. Evidently the halfpennies are spent to advantage.

Persian Balm—Invaluable to the whole family. To the mother, a flawless aid to loveliness. To the child, a soothing, healing balm. And to the father, a splendid hair restorative and cooling shaving lotion. Persia Balm tones and refreshes the skin. Makes the hair delightfully soft, and white, indispensable to dainty women. A real gem for the home. Made up by the tissues, making the skin truly rose-lip in texture.

Saskatoon's Growth

Approximately 10,000 names will be added to the voters' list in Saskatchewan, figures compiled by enumerators reveal. The total will likely be in the neighborhood of 20,000. The urban polls are expected to mount from 13,335 in 1926, to about 22,000 this year, indicating the substantial growth in Saskatchewan's population.

Due Notice
A woman not one of the sales was
struck on the head by a piece of
plaster which fell from the ceiling.
She had begun to talk about damages
for the injury, when, with great
presence of mind, the shop floor-
walker led her outside, pointed to a
large notice, and said:
"You see, madam, we distinctly
warned you."

Looking up the injured one read:
"Notice! The operators are
coming down!"

THE BASSANO MAIL
Published Every Thursday
Wallace J. Smith
Editor and Publisher
Subscription - \$2.00 a Year Canada
\$2.50 to the United States

Times sure must be getting tough
when they say "too tall" to call
"reconditioned" cars are being re-
ferred to by the old familiar term
of "second-hand" cars.

A Calgary paper says, "forty
thousand tiny fish on way from hatch-
ery to Calgary." "Small scale stuff!"

The automobile has provided us
with a number of new excuses—
"Caught in a traffic jam;" "Couldn't
find a place to park my car."

A new bill being introduced in
the state of New York makes hitch-
hiking unlawful. How long will the
poor pedestrian suffer such oppres-
sion?

White Rabson says the cost of
living is going down it seems the
cost of dying is going up. The
new council is going to raise the
rates for cemetery plots.

BETTER ROADS
The popularization of the auto-
mobile has caused a cry for "better
roads" to rise from all corners of the
province.

Food building is an expensive un-
der-taking, and the demand for more
and better roads seems always to
exceed the funds of the treasury and
the ability of the public works de-
partment to build roads as rapidly
as the public demands them.

The main highway road building
program through Bassano will, when
completed, place this district in the
first class road list. It is expected
the earth grade will be finished this
fall right through from Glenbrook to
Brooks, and graveling will probably
be done as far east as Bassano next
year.

With an all-weather road built
high up to its full capacity from
snow during the winter months,
all-year motor traffic will become
more common, and "putting the car
away for the winter" simply won't
be done.

SERIOUS BUSINESS
The weed menace in Alberta has
already reached serious proportions,
and the prosperity of agriculture in
certain sections of the province is
threatened by weeds that are diffi-
cult to eradicate.

Realizing the seriousness of the
weed menace the provincial Depart-
ment keeps a staff of men constantly
at work developing methods of weed
eradication and control, and inspect-
ing areas infested with weeds.

These weed inspectors mean busi-
ness. They are authorized to inspect
agricultural and other lands and in-
struct owners or occupiers to destroy
weeds that may endanger their own
or their neighbors' crops.

Only a few days ago a farmer in
Glen Colony was fined for not de-
stroying weeds as instructed by the
weed inspectors.

The Department of Agriculture
does not like to use harsh measures,
but weeds must be kept under con-
trol if agriculture is to prosper.

MR. BEN ADHEM
About Ben Adhem may his tribe
increase?

Awoke one night from a deep dream
of peace.

And saw, within the sunlight in its
room,
Making it rich and like a lily in
bliss.

An angel writing in a book of gold.
Extending grace-had made Ben Ad-
hem hold.

And to the presence in the room he
said,
"What wisest thing has thy vision
raised its head,
And with a look made of all sweet
accord."

Answered: "The names of those who
love the Lord."
"And mine is one," said Ben Adhem.
"Nay, not so,"

Replied the angel, "thou spokest more
low,
But cheerfully still, and said: 'I
pray thee then
Write me as one who loves his fel-
low men.'"

The angel wrote and vanished. The
next night
It came again with a great awak-
ening light.

And showed the names whom love of
God has blessed,
And lo! Ben Adhem's name led all
the rest.

—Leigh Hunt

Boarder's Revenge
"Oh, Mr. Jones," cried the land-
lady, in a flutter, "I've seen a large
rat in the pantry—what shall we do?"
The boarder looked up from his
paper. "Shut the door," he replied,
"and let it starve to death!"

CURING ALFALFA
(Experimental Farms Note)

The curing of alfalfa hay has re-
ceived considerable attention at the
Morden Experimental station, Mor-
don. Alfalfa contains a high moisture
content, is a heavy yielder, and a
highly perishable crop.

Through experience, it has been
ascertained that the best time to cut
alfalfa for successful curing is when
the crop is about fifty per cent in
bloom.

Alfalfa being a legume it is high-
ly important to save the leaves.
From determinations made at the
Morden Experimental Station alfalfa
leaves constitute from 42 to 45 per
cent of the plant. In feeding value
alfalfa leaves are equal to bran ton
to ton.

Alfalfa should not be allowed to
lie in the swath too long after being
cut as the leaves will shrivel and
fall off while the stems are still full
of moisture, thus cutting off the flow
of moisture as the water becomes
sealed up in the stems when the
leaves fall off and curing is consid-
erably retarded.

At the Morden Experimental Station
the time alfalfa is allowed to lie
in the swath depends upon the
weather. If the day is bright, sunny
and hot, it is raked up fairly green.

If the crop is heavy and the swath
is thick it is necessary to shake out
the swath. This can readily be done
by the use of a tedder. If a tedder is
not available then forks should be
used. If the weather is fine the hay
is allowed to lie in the windrows and
in this way the air can pass through
the windrows and drying is hastened.

If the weather is not favourable then
most of the curing is done in small
rolls. Under no circumstances should
rolls be large as the large rolls set-
tle and prevent the air from passing
through and will cause discoloration
and in some cases mould. The method
of curing depends upon the weather.
Good judgment must be used, and it
may be advisable to hasten progress
by allowing the hay to lie longer in
swath and in windrow, even at a sacrifice
of some of the leaves, in order to get
hay cured and stacked. In dry weather
it will take from four to six days to
properly cure alfalfa in rolls.

At the Morden Experimental Station
the bulk of the alfalfa hay is
stacked, as it is possible to stack it
with good results when it is not suf-
ficiently dry to put in the barn. If
stacked in narrow stacks the air can
get through much more readily than
when placed in a mow in the barn.

Alfalfa should not be stacked until
no moisture can be squeezed out of
the stems. Telephones may be dry but
the stems may be full of moisture.
At all times avoid stacking alfalfa
hay when the dew is on it as external
moisture will cause heating and
quite often mould.

Local News

Miss Dorothy Flanagan, who has
been visiting relatives at Coats, Al-
berta, returned home last Monday
with her father, W. L. Flanagan,
who visited here for her.

Miss Jean Ritchie, of Vancouver,
was the guest of her sister, Mrs. W.
P. Kelch, last Friday and Saturday.
Clyde Wilson, now of Rockyford,
was a business visitor in Bassano
last Friday.

Mrs. Jas. Culbertson, who was a
patient in the Bassano Hospital fol-
lowing an operation, returned home
last Thursday.

Mrs. L. D. Nesbitt, Olive, and Little
Dona, of Calgary, were guests at
the home of Mrs. E. A. Beck last
weekend, returning home Sunday af-
ternoon with Mr. Nesbitt, who
came down by car Sunday morning.

Mrs. Wm. McLeas and children
retraced home last Saturday after a
vacation at Grand Beach, near Win-
nipeg.

Dr. A. G. Scott, H. O. Hedin, Dr.
B. E. Barlow, and Robt. McLean
motored to Calgary last Monday.

Mrs. T. W. Simmons, of Calgary,
is a guest at the home of Mrs. Robt.
Wright.

Miss Marjorie McFarlane, of Cal-
gary, is visiting with her cousin,
Miss Bernice McFarlane.

Miss Frances Lister returned last
Sunday after spending the past three
weeks at her home in Stirling.

Mrs. and Mrs. Harry Horsford were
in Medicine Hat for a few days early
in the week.

Miss Winifred Phillips is visiting
in Medicine Hat with Miss Fanny
Hunter.

Miss Marion Smith, of Calgary,
was visiting in Bassano Wednesday
and Thursday with her brother, W.
J. Smith.

Mr. and Mrs. T. H. Hunter, of
Medicine Hat, were in town for a
few days the early part of the week.

A. H. O'Keefe, local bank man-
ager, spent the weekend in Calgary
with Mrs. O'Keefe and children, who
are visiting in the city.

Misses Edith and Isabelle Ballie,
of Brooks, are visiting with their
sister, Mrs. N. W. Simpson.

Wednesday afternoon this week
was the last half-holiday of the
summer season. From this date
stores in Bassano will be open Wed-
nesday afternoons.

Miss Muriel Simpson, of Calgary,
is home in Bassano for a few days
visit.

Give them the
protection of a
General Electric
Refrigerator

GOOD health is the most
precious asset of your
children . . . and you can
safeguard it by keeping their
food always fresh and whole-
some in a General Electric
Refrigerator.

For a few cents a day a General
Electric Refrigerator preserves
milk and other perishable
foods safely below the 50-
degree danger point and re-
moves the health menace of
slightly-spilled eatables.

The General Electric Re-
frigerator is so trouble-free in
operation that it never even re-
quires oiling . . . so simplified

that there are no fans, belts or
stuffed boxes to get out of
order. All the mechanism is
sealed in steel . . . a proof
forever against the destruc-
tive effects of air, dirt and
moisture.

Come in and let us demon-
strate the superiority of the
General Electric Refrigerator.

WORLD HAPPENINGS
BRIEFLY TOLD

In a recent month 13 tons of freight were carried by air from the Netherlands to London, England.

Victoria, largest dry spot on the beer map of British Columbia, may vote again shortly on the question of beer parlors.

With labor unrest spreading throughout northern France, a general strike of textile workers in Roubaix and Halluin was called, affecting nearly 100,000.

The gross earnings of the Canadian National Railways for the ten-day period ending July 31, were \$6,519,704 as compared with \$6,224,984 for the corresponding period of 1929, a decrease of \$1,705,400.

Because he finds England more inspirational to poetry, Conrad Aiken, well known United States poet, has called for England, possibly to remain the rest of his life. He won the 1929 Pulitzer award for the first American verse of the year.

Mr. Macquisten has appeared in the British House of Commons in a suit of shimmering silk, conspicuously giving a lead to drably dressed politicians, says a writer in The Guardian. In 19th century, Parliament, the attire of members must have made the House a feast of color.

Plans for production of an all European news reel include talks made in the Arctic regions. A German-Swedish company will use dog sleds and a specially fitted steamship in carrying the first film cameras ever to penetrate the Arctic Circle.

In the presence of thousands of citizens and visitors, Sydney recently celebrated its entry into cityhood. Degraded boats paraded for an hour through the streets. Mayor McKinnon, Minister of Mines for Ontario, presented the charter bearing the seal of incorporation.

The German aviators, Hirth and Weller, who reached Iceland on an attempted flight from Germany to the United States, have abandoned their project and Hirth sailed for Montreal with their small monoplane. His companion will take the next ship back to Germany.

The Peking Man

Canadian Scientist Has New Theory Regarding Discovery in China.

The "Peking Man" was really an adolescent girl, who had possibly 1,000,000 years ago, Dr. Davidson Black, Canadian scientist, said, in announcing the discovery of a second ancient skull.

The noted paleontologist, who dug up the skull of the "Peking Man" some months ago, said he had found the second cranium embedded in the rock of the same cave in which he found the first skull.

The second is that of an adolescent male, Dr. Black said, and the measurements further indicated the first skull was that of a girl.

Nationalize Coal Mines

Drastic Steps in British Coal Mining Industry Are Planned

Rt. Hon. William Graham, President of the Board of Trade, in a speech at Durham, England, said the recently passed coal bill was a Parliamentary step along the road which the British Government intended to follow until the great collieries were the property of the people. His audience, composed largely of farmers, welcomed the sentiments expressed. "We are pledged as a Government to nationalize the mining royalties, and we hope the time will be found in the next session for that bill," Mr. Graham said.

Dog's Name in Phone Directory
Pussy Willow Thornton, an aristocratic building, has a telephone listed in her own name. It was revealed in Chicago. A few lines about Pussy Willow's name will be found in the name of Mrs. J. Thornton, dog's mistress. Mrs. Thornton's theory is that animals are as human as people and therefore have a right to be listed in the telephone directory.

You paid for your dinner yesterday, sir, but you forgot the waiter.
"Oh, should I have eaten him?"
—Helen Hunter, Madrid.

Single-handed clear lighters have appeared in Germany.

Interesting Exhibits

Floating Museum Of Byrd's Antarctic Expedition

The City of New York, flagship of the United States Navy, is to go on tour as a floating museum of the Antarctic. Admission will be charged to the public in an effort to overcome the expedition's deficit of more than \$100,000, which continues to mount because of the expense involved in assembling the scientific material brought back by the expedition.

Announcement of the move came from Captain Ashley C. McKinley, in charge of the expedition's affairs in the absence of Admiral Byrd. The ship will go on exhibition at the Ninety-sixth Street pier in the North River, and will be open to the public from 10 a.m. to 10 p.m. On leaving New York it will go to Boston and other New England cities and will then proceed south along the Atlantic seaboard.

"More than a month has been spent in assembling the models and exhibits built by the expedition members during the Antarctic night," Captain McKinley said.

"When open to the public the ship will contain the most complete exhibition of Antarctic specimens ever gathered, and will be a handsome record of our southern expedition."

On view will be a model of Little America, constructed to scale by the American Museum of Natural History; the models of the Floyd Bennett, the airplane used in flying over the South Pole; models of other expedition planes; a model of the City of New York and a replica of a camping scene showing one of the expedition parties.

Fashion

(By Anabelle Worthington.)

2574

A printed crepe silk shows how smart it can be in straight silhouette with low-laced fulness.

The pointed outline of the hip yoke and the circular skirt flounce, produce a particularly slendering effect.

The neckline is interesting in contrast yet yet proceeds to the point of a plain crepe match the background of the print.

The short sleeves with elbow flare are very smart.

Style No. 2574 can be had in sizes 14, 16, 18, years, 36, 38, 40 and 42.

It is very pretty in printed chiffon while that will give such excellent service.

Showering, flat crepe silk, pastel sheer linen and printed tulle are fashionable fabrics for its development.

Pattern price 25 cents. Be sure to fill in all size of pattern. Address: Winnipeg Newspaper Union, 378 McDermott Ave., Winnipeg.

MISS KATHARIN TREVELYAN, WHO HAS JUST COMPLETED A TOUR ACROSS CANADA

Here is shown Miss Katharin Trevelyan, daughter of Charles Trevelyan, Minister of Education, who has completed a trans-Canada hike, as she gets a few pointers from "Scotty" Downes, Jasper Park guide, on how to pack a pack on a pony or I will stay there. Miss Trevelyan is now on her way home and made the ascent of Mount Edith Cave, 11,033 feet high, while at Jasper Park.

Claims Matter Is Weighless

Scientist Gives New Definition Of Weight and Force Of Energy

After delving into philosophical questions as a hobby from a very early age, W. Donald Mitchell, under the nom de plume of "Legion Philatus," has published "The Great Light of Relativity."

In his book, Mr. Mitchell, who was born in Pembroke, Ontario, of Scottish parentage, claims to reveal that the earth does not weigh so much as one ounce, that matter is weightless, and gives a new definition of weight, and also of the force of energy. He claims to reverse Newton's equation of attraction, and Einstein's space-time-energy theory.

He gives other concepts of philosophy in systematic form, chief of which seems to be his statement that "knowledge, or intelligence, is the relative, transient, personal and material reflex from objects and elements of external reality, partially retained in memory—in or on the negative plates or cells of the brain."

The author of this remarkable work believes himself to have made the most remarkable discoveries in recent generations and thereby set a new standard for philosophy, metaphysics, psychology, and the like, also education. "I promise to affect the entire scientific thought of the age," he says. He makes no declaration dogmatically, but states: "I shall be delighted to receive, either personally or otherwise, any criticism for or against any statement, claim or definition, appearing herein, for the spirit of progress is formed in criticism and jubilation of discovery."

Grape Juice Duty

Special Tariff Men Designed To Meet Foreign Competition

A special issue of the Canada Gazette announces that an order-in-council has been passed bringing into effect the special tariff item designed to meet foreign competition in concentrated grape juice. Grape juice previously was all under one duty.

The new duty provides a tariff of 25 cents a gallon with an addition of three cents a gallon for each 0.1 increase in specific gravity above 1.074. It comes into immediate effect.

Birds and Aviation

It was the example of birds which first led man to invent flying machines. The process of invention did not yet proceed to the point where the example of the hummingbird can be emulated and a heavier-than-air machine maintain its equilibrium at a given point. It is that invention that will be among the greatest in the history of aviation—Victoria Colon.

Must Wear Home Products

A new law has been passed in Persia, similar to certain laws passed in England a few centuries ago, compelling every government official, from the highest to the lowest, to wear clothes made of Persian manufacture only. Severe penalties are to be meted out for every infringement of this law.

Blown by suction from the intake manifold, a whistle has been invented to warn motorists that circulation of lubricating oil in his car has stopped.

"Dunnet" wire has taken the place of platinum in the manufacture of light bulbs. It has the same electrical resistance as platinum and enables the bulb to remain alight.

Aviators Have Trying Trip

Combat Engine Trouble While Flying North Of Port Churchill

After combating engine trouble away from North of Churchill, making emergency repairs and carrying out their mission two Royal Canadian Air Force pilots are back at their base at Cormorant Lake, Minn. 42 Hudson Bay.

The officers are E. H. Hickson, flying a Fairchild, and M. B. Barclay, flying a Bellanca. They conveyed A. R. Poirer, Federal Government official, to the far north to collect data on reindeer pasture.

According to reports from Churchill, the officers were flying about 100 miles north of Eskimo Point on Hudson Bay and about 50 miles south of Chesterfield Inlet, when a cylinder locked on the engine, which they dropped down in the sea.

The ship "York," plowing northern waters, was nearby. The captain offered assistance but the pilots found they could make repairs. They managed to get off the water and limped through the air, finally coming down at Vavane, a small trading post, and base of operations of Dominion Explorers.

Vavane is about 100 miles from Eskimo Point. Their destination was in the "barrens" about 150 miles west of Vavane. At Vavane they met Alex Nicholson in charge of Dominion Explorers' base. He helped them with spare parts and they flew out into the barrens.

Recipes For This Week

(By Betty Barclay)

SNOW-TOPPED BALAD

On a bed of crisp lettuce leaves arrange a mound of fruits of various kinds, cut in small pieces. Oranges, pineapples, grapes and peaches are excellent. For each season, or small cubes of watermelon or cantaloupe, may also be utilized. Top this with a liberal serving of stiffly-beaten, sweetened cream.

Immediately before serving, sprinkle the fruits and lettuce base, liberally, with a syrup of orange marmalade and teaspoons of sugar in the juice of two oranges and one lemon.

SWEDISH PRUIT COOKIE

1 cupful sugar,
1 cupful butter,
2 eggs,
1/2 teaspoonful baking powder,
1/2 cup sweet almond.

Mix all ingredients together with bowl, stirring, beating powder with flour. Mix with the hands until ingredients are blended, being careful not to work too long. Push through pastry gun, shape in rings or 8 shapes. Bake in a quick oven.

Okanagan Valley Fruit

Oliver and Okanagan districts will in a few years supply the entire prairie market with stone fruits, according to J. A. Grant, of Calgary, British Columbia's marketing board representative in the prairie provinces.

Mr. Grant has recently spent some time in the Okanagan valley and was particularly impressed with the Oliver and Okanagan districts.

More than 1,000 radio transmitting licenses have been issued in the Dominion of Canada during the present year.

Place any man where he has no installment payments, no taxes, no star, losses and still he will pay the bars to get out.

Colorful Scenes At Indian Treaty

Week Of Fun At Nelson House

The picturesque Great Indian reserve and trading post at Nelson House was the scene of a colorful carnival recently upon the occasion of the annual visit of the Indian party. Native dances and modern sports vied with each other on the grassy common at this beautiful spot on the Burntwood River in Northern Manitoba. Football games and a beauty contest were outstanding features of the week of fun.

Nelson House, which is reached by canoe trails from either Mile 127, Mile 128, or Mile 274 on the Hudson Bay Railway, is one of the oldest trading posts in the Manitoba hinterland.

This treaty party traveled in two canoes and was in charge of W. G. Tweedell, Indian Agent in charge of the territory. Other members of the party included Arch. Richardson, assistant to Mr. Tweedell; Dr. E. W. B. Waggell, of Winnipeg; and Sgt. J. Nelson, of the R.C.M.P. The P.A. besides Indian guides, O. W. Jones, of the provincial game department, was also at Nelson House during treaty time.

Indians had assembled from all reserves in the area for the first big game event, and they established a veritable tent city at the trading post. About 425 natives received their annual payment of five dollars a head from the Federal Government.

Enforce Prohibition Laws

New United States Prohibition Director To Proceed Against Large Violators

Maintenance of "steady pressure" against the large violators of the United States dry laws was announced by Prohibition Director Amos W. Woodcock, as a guiding policy of the reorganized enforcement unit.

"I will not have our agencies following the course of least resistance and wasting their time upon pitiful, picaresque, non-commercial cases," he said. "I think the prohibition laws can be successfully enforced against commercial operations. I propose to make that our objective and not the twelve administration, recently appointed to take charge in the field, and a group of special agents responsible directly to national headquarters for investigation work."

Survey Of Wood Waste

The Vancouver Forest Products Laboratory, conducted by the Forest Service of the Department of the Interior, is engaged on a survey of wood waste in British Columbia, in view of assisting the industry in devising methods of profitable utilization of wood now wasted.

We think we're a smart people but it took half a century for mankind to learn not to sack the woman customer what size shoe.

It's strange that a motorist never remembers he used to be a pedestrian.

No Loss From Pool Guarantees

Wheat Pool Did Not Have To Call On Government For Funds

A special despatch to the Toronto Mail and Empire from Ottawa says: "From no less a person than the chief statistician of the Canadian Wheat Pool's selling headquarters in Winnipeg, government authorities in Ottawa have received the cheering information that the prairie provinces have incurred no loss from their guarantee of the Wheat Pool's operations."

"Early in the year, when it became apparent that Canada was not going to be able to market her whole crop and that the market price had suffered a severe slump, the three prairie governments put their credit behind the Wheat Pool to the extent of guaranteeing the banks against loss through the advances made to the pool."

"According to information supplied to the Dominion government, there has been no loss. The pool's crop was sold July 15. Everything transacted from July 15 onward is part of the 1930 pool. Completion of the final report of the 1929 pool is under way, and has progressed far enough to reveal that the pool sold enough wheat, above the dollar price to at least cover the cost of the quantity which had to be sold below that mark—leaving the provincial guarantees unimpaired."

"Andrew Cairns, statistician for the pool, was in Ottawa several days ago securing passports and making preparation for a trip to Russia. He has now departed for that country for the purpose of surveying the wheat situation in the Soviet and determining to what extent Russia is looking as a serious factor in European export wheat supply. Mr. Cairns informed the government of the situation in regard to the wheat pool, which, he said, would now expire."

Mediterranean Service

Inauguration Of A New Monthly Service From Canada

Inaugurating the new monthly service from eastern Canadian ports to Gibraltar, Malta, and other Mediterranean ports, the "David Livingstone" will sail from Montreal on or about September 10. The ship will follow about October 10 by the S.S. Benguela.

The new service, according to the Department of Trade and Commerce, will consist of special motorships, equipped for cargo and accommodation for 10 or 12 passengers. Owing to the absence of a direct steamship service between these ports, and Montreal or Halifax, Canada has not been able to share in these markets to any extent in the past.

New York now has four airplanes for its police patrol, which will watch out for law-breaking from the vantage point of the air.

The pimento tree, a Jamaica native, is the source of allspice.

Make Your Windows Pay

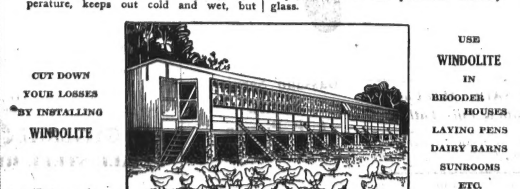

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute allows the full sunlight to enter, in light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

A son, to Mr. and Mrs. E. J. Currie, of Dorothy, on Saturday, August 8.

A son to Mr. and Mrs. J. M. Brinson of Banff, on Sunday, Aug. 9.
Twin girls, to Mrs. and Mr. T. H. Sorenson, of Cluny, on Friday, Aug. 8.

A daughter, to Mr. and Mrs. Mahabalk, of Crowfoot, on Tuesday, August 10.

NEW CALENDAR MAY
BE USED IN 1932

Moses B. Cotworth, expert of the League of Nations on Calendar reform and director of the International Fixed Calendar League was in Ottawa this week and stated that he was his opinion that the new calendar would be put into operation over the world in 1935.

On July 1st postal authorities of 50 nations, including Canada, began making settlements in periods of 2 and 4 weeks, thus instituting a practical 12 month calendar. Following his visit to the centers in Canada Mr. Cotworth said he expected to visit in China, Japan, Egypt and Persia.
Canada is the only government in the Western Hemisphere which has not recorded its desire to participate in the next international conference of delegates which will assemble in 1931 in Geneva, where the 12 month calendar will be fully discussed.

CRAWLING VALLEY NEWS

Mr. and Mrs. Frank Thew were dinner guests at the Robbins home on Sunday.

Mr. and Mrs. R. Hobson entertained as dinner guests Mr. and Mrs. Ralph Hobson and family on Sunday. Ralph Junior returning home with them.

E. J. Currie and Joe Miller were Hussar callers on Friday.
Mr. R. Robinson, Mrs. Robbins, and Mrs. and Mrs. E. J. Currie made a business trip to Bassano on Saturday.

Mrs. Dutch Bryant was visiting in Calgary last week.

ONE GOOD DISH MAKES A COOK FAMOUS

At this time of the year when curries are so plentiful it is a change from the usual run of jellies and jams made out of these little berries to be able to make an appetizing and easily prepared dessert that the whole family can enjoy.

Curry Cream

Crush one quart of currants and one cup of fresh raspberries, cover with one cup of sugar, and let stand in cool place over night. In the morning rub through a fine sieve. Make a syrup of one pint of sugar and one pint of water, boiled together ten minutes. Let cool and add to fruit juices with one pint whipped cream. Freeze as ordinary ice cream, or place in tray of electric refrigerator for several hours.

DUTCHESS, Aug. 14—Miss Olga Holo arrived from Edmonton last night for a visit with home folks before going on to her school at Culmnan.

Mrs. Frank Lloyd, of Delbourne, is visiting her sister, Mrs. Halley, and Mr. Halley.

Miss Christina Danumero and Miss Marjorie McDougall are spending the week with Mr. and Mrs. Bob Danumero at Brooks.

Mr. and Mrs. Woodward and children Cora and Alex, who are spending their holidays in Saskatchewan, are expected home this week.

Mr. and Mrs. Root motored to Medicine Hat Saturday night, returning Tuesday.

Miss Lucila Rosen, of Portland, Oregon, is visiting her parents.
